

Dear sirs,

In your deliberations over this issue could you perhaps examine the suggestion of having MPs' second homes being owned and managed by their Local Authority/Constituency, thereby removing any dubiety with regard to the appropriateness of expenses incurred by the member.

As a delegate/representative of the community it would also be more appropriate and accountable that each community fund their 'ambassadors' lifestyles whilst on parliamentary duties in the capital.

sincerely,

Mr. J E Guazzelli
Irvine, Ayrshire
