

Dear Sir/Madam

SECOND HOME

The allowances that have been claimed and controversy over what a second home is can be overcome by:

1. MPs whose constituency is within the M25 are not allowed to claim and are assumed to already live within the London area.
2. MPs constituencies outside the M25 residential accommodation is provided by the state in London and all costs paid directly by the state. This could be the re-use of the 2012 Olympic Games site with security or a present Government block having a change of use. They would be booked in and out much like the present armed services system and any damage paid for.

Regards
R Towle
